A rimless toilet is simply a toilet without a traditional rim. Instead of water flowing into the bowl all the way round the rim, a direct flush technique shoots water around the edge of a smooth pan. As there is no rim, rimless toilets are easy to clean and more hygienic than a traditional toilet.

HOW IT WORK

- * Large water surface offers easy cleaning
- * Extra large siphon jet for maximum power
- * Elegant skirted design offers easy cleaning
- * Large computer designed, fully glazed trap way reduces clogging

CHARACTERISTICS

All seats and covers are subjected to a weight test.

Soft Close Seats & Covers
Soft Closing and silent
Special technology

All WC pans are subjected to an odor leakage test.

All seats and covers are subjected to an open/close test.

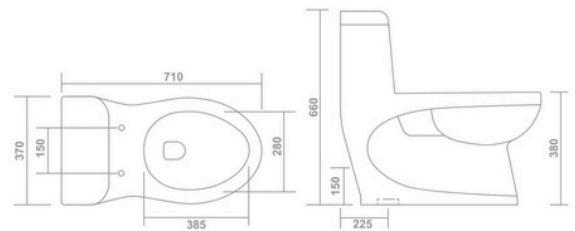

Anti Bacterial Glaze

Saves water with only 1 Ltr. of water consumption.
